- M: Hi, Olivia. I heard you are taking a vacation next week. Where are you going?
W: I am going to Tokyo to visit my friend.
M: Visiting a friend in Tokyo! That sounds great. How did you meet her?
W: We studied at the same university and became very close. We couldn't see each other after graduation because I started to work here and she returned to Japan. Fortunately, I can have some time off since I completed three financial reports due last week.
M: Now I understand why you were so busy last week. How long are you going to stay there?
W: For two weeks. We plan to travel together and will visit some famous places in Japan.

- W1: You should submit an application form to the Personnel Department. But the problem is that everyone wants to take time off in July. It's first come, first serve based on seniority.
- M: In that case, the chances are not good for me, are they? I think I should request vacation some other time.
- W2: Well... you should at least try.

Questions 1–3 refer to the following talk and graph.

M: The graph shows how a group of people get to work. Of them, 75 people get to work by bus and 50 people go by car. 20 people get to work by bike and only 10 people go on foot. Therefore, 30 more people travel by car than by bike. 10 more people get to work by bike than by walking to work. According to the graph, the largest number of people travel by bus, while the fewest walk to work. Therefore, we can conclude that driving a car is the most common form of commuting to work, while walking is the least common.

Questions 4–6 refer to the following announcement and map.

W: A development project has started. When completed, it will considerably ease congestion in the city. The scheme has been tipped to help motorists traveling to Castle Mall and in the city center. Work will be done at three of the junctions along Greenwood Way. The project includes main street improvements such as installing new traffic signals at the intersection between Hill Road and Park Avenue. The work will reduce travel times to the city center and make the roads safer for pedestrians and cyclists. Bus-only lanes will be introduced from Wane Road to Prince Avenue to reduce travel times during commuting hours. During the road construction, motorists traveling north on Park Avenue and Prince Avenue are recommended to take a detour to Wales Street.

The least busy time was at 10 a.m., when there were only two people there. The number of people at the store gradually increased to 22 by 2 p.m. After that time, the number started to fall and continued its downward movement until the store closed. At 4 p.m., the number of people at the store was 10, and there were only 6 people at closing time, which was the second least busy time of the day.

M: Good morning, everyone, and thanks for being here today. My name is John Liu. I work as a career counselor in the Department of Employment. I am very pleased that we have a full house here at our conference hall today and that many companies and their staffs are also participating in this seminar. This is an exciting program that is providing information on employment opportunities, applications, and interview techniques for new graduates. Now, please look at page one of the handout. We have four speakers today. They will talk about each topic as described on the schedule. Please note that there is a misprint on the timetable. The last speaker, Marilyn Aylett, will start her speech at 2:30. There are two tea breaks lasting 30 minutes each. One is in the morning and the other is in the afternoon. Refreshments and light snacks will be served during the tea breaks.
